

KARTING DISCIPLINE

Camera Bulletin Update : Camera use, Mounting & Review in protest for karting. (Updated : 15/03/2019)

Cameras: *The following rules and regulations regarding the use of on-board cameras will apply at all sanctioned events. Additional questions regarding cameras should be directed to the Tech Director at the event. A maximum of 2 cameras are allowed per kart.*

Identification: *All cameras used at sanctioned events must be registered on self-tech forms with your club prior to use. Additionally each camera must be clearly marked with the owner's name and mobile phone number. Cameras without identification may not be returned. Loss of the camera on the racing surface may result in penalties, including loss of positions, loss of points, and/or monetary fines at the discretion of the Race Steward.*

Mounting Procedures: *The following mounting procedures must be followed at all times; all cameras shall be subject to inspection and removal at any time by tech personnel. Competitors in violation will be subject to penalties, including loss of positions, loss of points, or monetary fines. Under no circumstances are cameras allowed on the driver's person or exterior shell of the helmet.*

Mounting on radiator, side pod or in helmet Visor Cameras can only be approved and permitted by a race directors inspection & written approval before on-track use.

Exterior Cameras must be hard-mounted by bolt and nut. Mounting externally by use of any form of adhesive is prohibited.

Cameras may be mounted on front panel (as long as number plate is not obscured), main frame rails or welded seat strut.

The Race Director or Tech Official may require additional measures / requirements for mounting at any time during such event.

Video in Protest : *The Use of Video review will be allowed or disallowed at the Race Stewards discretion.*
