

Dear fellow racers,

Unfortunately we will not be able to organize the shakedown race as we planned for this weekend. We studied the current health regulations as enforced as of the end of February and we don't see how we can organize an event that will not violate these regulations. Besides that we do not want under any circumstances jeopardize the ability for our members to use the track for test & tune.

We will keep the upcoming races on the schedule and make a judgement a week before the event. As you all experienced last year the situation can change rapidly, either good or bad.

The cleanup as planned for this Saturday will still be on as this would not classify as a sporting event. Hours worked will count towards your volunteer bond.

Here is the link if you are planning to stop by. Make sure you are registered to be in compliance and for us to keep track who worked off the bond:

<https://signup.com/go/YLgkjVW>

With nicer weather around the corner we can expect the track to be a bit busier during test and tune in the weekends and midweek. Please make sure you sign up before heading out and follow all protocols as in place for a year now.

Thank you all for cooperating and your understanding. I feel the end of this is near and looking forward to a great race season!

Erik Gerlof
President WCKC
