

Fellow racers,

Please note the track will be closed for open practice tomorrow March the 13th as we will be conducting our annual spring cleanup day. We will be performing maintenance to the track and paddock area. We will start around 9 am ish and work through the day.

We are planning to position the containers in place, pressure wash the scoring tower and storage containers. We would like to do some paintwork and other general work at the track.

If you would like to join us please sign up here:

<https://signup.com/go/YLgkjVW>

When you are planning to come we could use a few pressure washers, paint brushes if you have some, brooms, work gloves.

As we will be sweeping the paddock area all trailers have to be removed from the paddock and parked in the gravel parking lot or grass area. Please contact Erik if you have any questions. 250-682 3377. I will be bringing a Skidsteer with trailer spotter so we can move trailers for you as long as they are not locked.

Erik Gerlof
