

Good morning fellow racers,

First of a huge thank you to all the members who came out yesterday and helped getting the track ready for the season! We got a huge amount of work done including a total redo of the viewing area in turn 1 and turn 8. We managed to put the storage units in place, track cleanup, weed wacking and resetting all the tires. We did some painting and swept the complete paddock.

Now the track is again in tip-top shape we expect you, the members, to keep it that way. If you got off track and moved some tires or barriers, but them back.

When you leave for the day clean up your pit area. It has been in the rules for many years but as of today we will be more on it. Don't leave cut off zip ties, tire rubber etc but give your pit area a quick sweep before you go.

Do not leave anything behind! Last year we noticed a fair amount of empty steel fuel cans left on the paddock. That's a solid no. Please take it home and dispose of it properly.

Last year we did not enforce the rule that trailers can't be left on the paddock area unattended, resulting in a number of complaints from our members.

Therefore as of today you are no longer allowed to leave your trailer on the asphalt paddock area after you leave. For now you can leave it overnight if you decide to practice a few days in a row but it has to be removed when you are not using it.

Thank you all for helping build WCKC an being an amazing club! I trust we can be back racing again really soon!

Erik Gerlof
