

Fellow racers,

We tried, but we don't see any way how we can host race 1 without violating the latest health authority regulations. Therefore I regret to inform that we have no choice than to cancel race 1. All the other race weekends will remain on the schedule in the hope we will be able to race again soon!

As you are all aware we need to be 100% compliant and we would like to ask to keep up the good work! There are a few items that needs your attention.

- If you can't go, remove your name from signup so others have the opportunity to come to the track. The weather is getting better and with that we are filling up practice days.
- Please keep support persons to an absolute minimum. DO NOT bring your spouse, nephew, grandparents but only one support person per driver! This is very important to keep the number of people at the track to an absolute minimum and to give other karters the opportunity to enjoy the track.

As of this weekend, no more gathering in the hotpit. Bring your kart, put it down and drive. Coming off the track you now have to exit the track AT THE SCALES AREA like on a race weekend. DO NOT drive to the hotpit! We will make sure the gate at the hotpit area is unlocked. In no circumstances are you allowed to re-enter the track from the scale area.

Below you will find the updated interim covid regulations for your convenience. If you have any questions or concerns please contact me or any other board member.

Erik Gerlof
WCKC

- EVERYONE who is at the track needs to register with Signup. This is VERY important for tracing purposes.
- Full practice members only.
- One support person can accompany the driver on the facility. (One Parent, brother, mechanic, etc.)
- Maximum of one support person. Register separately to allow a parent to be at the facility.
- Driver to be signing in 12 hours in advance on the website or app (Signup.com). This is to allow people to travel to the facility without being locked out at the last minute.
- Track open from 9.00 AM to 6.00 PM
- Only one booking day at a time for weekends. for example if you book the Saturday you have to wait with booking the Sunday or another weekend day till that Saturday is over.
- for the moment we don't restrict bookings for mid-week usage. We might need to adjust that if demand is high.
- Working on karts or stay at facility beyond closing time is allowed.
- at least one pit stall between drivers.
- Not more than 1 driver per pit stall, unless from the same house hold.
There are 49 stalls on the track.
- Keep at least one open space in the hot pit between karts. Again, we have 64 spots between the 2 hot lanes. DO NOT gather at the entrance of the hot pit.
- Obey all social distance rules as per health authority.
- No sharing between team/drivers

- Maintain social distancing in-camp with your plus one if they are not living in the same household as you.
- No tools or safety equipment sharing between drivers
- Dealer members, you will have 2 spots assigned per dealership. One spot for the primary dealer/coach and one for an employee or client.

Try to keep noise to a minimum. Warm up your karts on the track or at the hot pit. No revving engines in the paddock area.

For the facility:

- Gate will be closed after drivers comes onto the facility. (not locked)
- Washroom unit will be locked
- there will be an abundance of hand sanitizer spray bottles available for use.
- All garbage bins are removed/not available for use. Bring your garbage home.
- There will be signs reminding you of these rules
- picnic tables are not available for use
- The air hose from air compressor will be not available for use. Bring your own (12v) compressor or hand pump.
