

Fellow racers,

At the end of the day after enjoying another great day at the track the last person leaving the track has to close and lock ALL the gates. I just checked and the main hot pit entrance gate is wide open.

It's important to make sure all the gates are locked up to avoid unauthorized use of the track and putting the track at risk. Even though it's obvious I would like to mention that we all have to make sure that the main gate is locked at the end of the day to protect the clubs and it's members properties.

Thank you for your cooperation.
