

Good morning Harj,

I noticed Heather was signed up for this coming Sunday (tomorrow) as a helping person. As the track is getting very busy at nice sunny weekend days we implemented rule changes a few weeks ago and emailed them to the membership.

We implemented the changes based on feedback from the membership and to allow as many members as possible to use the facility. One of these changes read:

For weekend track usage the following rule apply.

-One helper per driver as usual, except when families or groups with 2 or more drivers per party attend. In this case the drivers can help each other.
For example, John Doe and his junior/senior child go to the track. John Doe can help the child tuning the kart. There is no need to bring Jane Doe.

We kindly would like to ask you and Heather to follow this rule and only have you and your son attend the track to allow as many drivers to use the track as possible.

Thank you.

On behalf of the executive,

Erik Gerlof
