

Fellow racers,

There is a PCMRC race this weekend so the track will not be open for T&T for both Saturday and Sunday.

Registration for race 4 is now open. We will be running normal direction (clockwise) and keep the reverse track layout for another day. Traditionally we have 3 races under our belt before we run reverse and with many new members we think it would be better to hold off on reverse running for this race.

As the province is moving into stage 2 we are now able to loosen a bunch of restrictions. Here is a list of restrictions still in place. If it is not listed here the restriction has been removed.

This is what we still need to follow:

- EVERYONE who is at the track needs to register with Signup. You can bring family, friends to help you out, but still register separately on Signup.
- Track open from 9.00 AM to 7.00 PM
- Keep at least one open space in the hot pit between karts.
- Obey all social distance rules as per health authority.
- No sharing between team/drivers
- Maintain social distancing at all times
- No tools or safety equipment sharing between drivers
- Please don't congregate in the hotpit.
- Masks mandatory in the hotpit, indoor/enclosed area's and crowded area's such as scales.
- Masks optional on all other areas of the facility.

Try to keep noise to a minimum. Warm up your karts on the track or at the hot pit. No revving engines in the paddock area.

For the facility:

- Gate will be closed after drivers comes onto the facility. (not locked)
- Washroom unit will be locked
- there will be an abundance of hand sanitizer spray bottles available for use.
- All garbage bins are removed/not available for use. Bring your garbage home.
- There will be signs reminding you of these rules
- picnic tables are not available for use
- The air hose from air compressor will be not available for use. Bring your own (12v) compressor or hand pump.

All other Covid-regulations are herewith withdrawn. If you have questions please contact the executive at executive@westcoastkartclub.ca.

Have a great day!

Erik Gerlof
