

Fellow racers,

Fantastic news! We ordered 420 new barriers and they are ready to be shipped. We are in the process of arranging trucking to Chilliwack. We will need a crew of 6-8 people to unload them from a 53' trailer. To maximize the space they are hand stacked and will need to be unloaded by hand also. They are relatively light but we don't want to pay extra to the shipping company for the truck to wait beyond the time that's included in the price.

I don't have a date yet but I just wanted to give a heads up!

Second project would be the removal of the tires and positioning the new barriers. We will bring in a skidsteer with a grapple to remove the tires and load them in a trailer but will need a fair amount of members to help with this project. Dates and time to be announced.

Talking about work at the club, currently there are a few members taking on a disproportionate workload at the club and this needs to change for the club to have a healthy future. Therefore we are looking for individuals at the club who are willing and able to volunteer their expertise and time with the following tasks:

- Race day supervisor. These person(s) will oversee raceday activities, makes sure all the volunteers are arranged beforehand and follow a set protocol to make sure all is ready for the big day! Things like are the radios and transponders charged, washroom water up to level, septic pumped out, garbage bin empty, etc... This is a supervising task overseeing these jobs. Many of them are sourced out and just need a follow up just to make sure they are done.

- Accounting. We could use a member, or members, to help with keeping the numbers in check. We are using Quickbooks online and this person/these persons need to be familiar with QB online. These are small tasks to help the treasurer. Things like reconciling the bank, create invoices when the track is rented, process expenses and (mostly race day related) invoices.

- Volunteer registry. This person will keep track of who volunteered and worked off the bond, and those who did not.

If you feel you are up to the task to take on these jobs please sent a quick e-mail to [executive@westcoastkartclub.ca](mailto:executive@westcoastkartclub.ca) and we will hook you up!
